

HYDRONIC ELECTRIC BASEBOARD HEATER

- Permanent mount unit, offered in 28" to 96" lengths from 400 to 2000 watts.
- Heating elements are immersed in a heat transferring liquid enclosed by a copper tube casing with aluminum fins.
- Powder coated 12 ga. heavy duty extruded aluminum housing construction with junction boxes located on each end of the unit.
- An automatic thermal linear limit is used along the entire heated length of the unit
- Wire guard extends along the entire outlet area of the baseboard.
- Commercial Brown unit has in-built wireway cover running the entire length of the unit.
- Field installed accessories include in-built thermostat kits, optional relays and disconnect switch among others
- Available in White or Commercial Brown powder coated finish.
- Special colors available, consult factory.
- Suitable for high altitude applications
- 10 Year element warranty

- Unique relay design permits solid state proportional and integral temperature control via the room sensor resulting in exceptional temperature control accuracy.
- Microcomputer relay designed to substantially reduce long time delays and is not affected by heater ambient temperature conditions.
- Room Sensor can be directly mounted flush to a vertical surface or standard 2" x 4" electrical mounting enclosure.
- Relay must be mounted in optional control section.
